

## 2.4 Mil Silicone PET Splicing Tape

### Description:

AWT 7231 is a 2.4 mil PET splicing tape with a silicone adhesive used in splicing, plating, and other masking operations.

### Features/Benefits:

- Performs in high temperature applications
- Chemical resistant
- Superior conformability

### Applications:

- Splicing
- Flash breaker tape

### Packaging:

- AWT7231 comes in standard roll lengths of 72 yds.
- Standard roll widths are 1", 2", 4" and 6".
- Additional sizes/lengths are available on request.

### TECHNICAL DATA\*

<b><i>Properties:</i></b>	<b><i>Values:</i></b>
Total Thickness:	2.4 mil
Backing:	1 mil PET
Adhesive Thickness:	1.4 mil Silicone
Peel Adhesion:	36 oz./in.
Tensile Strength:	26 lbs./in.
Elongation:	108%
Temperature Range:	-65 to 385°F
Color:	Blue
